CONFERENCE OVERVIEW
The Fifth Annual Latest Advances in Ischemic and Hemorrhagic Stroke Therapy 2014 will address critical issues related to decision making for and treatment of stroke patients.

The optimal care for stroke patients is ever changing as a result of advances in stroke prevention, therapy and research. This conference will feature experts from emergency medicine, neurology, neurosurgery, internal medicine, neuroophthalmology and interventional neuroradiology. With the goal to update on the latest patient care recommendations, these specialists will convey the newest advances in the treatment of stroke in a format that allows for timely application of proven protocol.

Discussion will include treatment of acute ischemic stroke, neuroimaging, cutting edge medical management and advanced endovascular treatments for stroke, stroke and hub stroke care delivery, diagnosis and management of intracranial venous hypertension and pseudotumor cerebri. Each of these topics will be covered in the context of case presentations and panel discussions that will allow for audience interaction with faculty. Audience response technology will further enhance dialogue on the current controversies in the treatment of stroke.

The day includes breakout sessions to allow participants to select the most applicable content. The conference will conclude with an interactive dialogue (approved for Ethics credit) on accountable care organizations. Given the urgency and complexity of treating stroke patients, this conference will provide strategies for the positive impact of a multidisciplinary team approach to care, this conference will provide strategies for the implementation of integrated care.

CONFERENCE OBJECTIVES
For each discussion point, the speaker will address clinical application (translation from science), practice barriers (ways to overcome) & care strategies (maximize therapy impact).

ACCREDITATION and CREDIT DESIGNATION STATEMENTS
By focusing on the American Board of Medical Specialties’ areas of patient care and medical knowledge, this CME live activity is designed to change clinical competence and impact physician practice performance.

Fifth Annual
 Latest Advances in Ischemic and Hemorrhagic Stroke Therapy

Activity Agenda

Morning Joint Session

7:00 AM Registration and Exhibits
7:45 Welcome and Introduction
Stuart B. Black, MD, FAAN and David W. Barnett, MD
8:00 Intracranial Hypertension: Diagnosis and Medical Management
Jeffrey W. Clark, DO
8:45 Is Endovascular Stroke Therapy Still a Viable Option?
Buddy Connors, MD
9:30 Break and Exhibits

10:00 AM
Ophthalmic Management of Pseudotumor Cerebri
Grant Gilliland, MD
10:30 Stenting of Dural Sinus Stenosis in Intracranial Hypertension?
Jeff Haithcock, MD
11:00 Creating Orders Out of Chaos: Crucial Management Skills for Stroke in the Emergency Department
Jim D’Etienne, MD
11:30 Running Out of Time: Treatment at and Beyond the tPA Time Windows
Dion Graybeal, MD

Afternoon Joint Session

Noon Lunch and Exhibits
1:00 Migraine, Stroke and White Matter Lesions: What’s the Connection and Clinical Significance?
David Dodick, MD
2:00 Platelet Reactivity in Stroke
Calin I. Prodan, MD
3:00 Break and Exhibits
3:30 Panel Discussion – Ask the Experts

4:00 Ethics Topic
Accountable Care Organizations: Will They Improve Quality and Outcomes?
Carl Couch, MD
5:00 Evaluations / Adjourn

10:00 AM
The Baylor Healthcare System Spoke and Hub Stroke Experience
Dion Graybeal, MD
10:30 Process Improvement in Stroke: Why and How
Buddy Connors, MD
11:00 Current Management of Cerebral Vascular Malformations
Jason Huang, MD

Guest Speakers

John J. “Buddy” Connors III, MD
Professor of Radiology and Radiological Sciences
Professor of Neurology
Vanderbilt University Medical Center
Nashville, TN

David W. Dodick, MD
Professor, Department of Neurology
Mayo Clinic
Phoenix, Arizona

Calin I. Prodan, MD
Associate Professor, Department of Neurology
The University of Oklahoma Health Sciences Center & VA Medical Center
Oklahoma City, OK
