Nursing Research Fellowship

Hit a home Run and be accountable for your nursing practice

This fellowship will educate and engage nurses in the research process and develop nursing research scholars in clinical settings. We hope to mentor you, as nursing leaders, to expand your knowledge, improve your practice and enhance patient outcomes. A primary goal at this fellowship is for you to complete a research study as we guide you through the process. We hope you will take advantage of this exciting opportunity!

Deadline to submit
application is
August 9, 2013

SUMMER WRITING WORKSHOP

The Department of Nursing Research is pleased to announce that on Friday, July 12, 2013, an exciting summer writing workshop designed to assist our nurses in completing their manuscripts related to the research study that they and their team have completed. This one day workshop included a short one hour review on writing research articles, the presence of an editor (Dr. Martha Bradshaw) and statistical support. By the end of the workshop day, each participant or team had a working draft of their manuscript. Due to the nature of the program, space was limited to 5 or 6 small teams and participation was restricted to invitation only.

Morgan Grant (Data Outcomes Analyst) conducted a literature review on their topics covering the last 2 years so literature reviews were updated. Rosie Soto (Administrative Assistant/Nursing Research Dept.) agreed to submit manuscripts to journals in an effort to support manuscript completion.

We enjoyed spending the day dedicated to manuscript development that ultimately made a major contribution to our system and profession. Again, we congratulate our attendees on the work they have accomplished and look forward to accomplishing the last milestone of manuscript development.

EJOURNALS

Featured ejournals on eTeams <https://eteams.mybaylor.com/council/ppractice/System-Wide%20Partnership%20Councils/RNResearch/Lists/eJournal%20Discussion%20Board/AllItems.aspx>

- The Comparison of Two Recovery Room Warming Methods for Hypothermia Patients Who Had Undergone spinal Surgery
- Parental Involvement in Neonatal Pain Management: An Empirical and Conceptual Update
- Brain Tumor Symptoms as Antecedents to Uncertainty: An Integrative Review
- State mandatory overtime regulations and newly licensed nurses' mandatory and voluntary overtime and total work hours
- Characterizing the Structure of Operating Room Staffing Using Social Network Analysis
- Development and Psychometric Exploration of the Professional Practice environment Assessment Scale
- Nurse Staffing and Patient Safety in Hospitals

BUMC NURSING RESEARCH SAFARI

Baylor University Medical Center had its annual nursing research fair May, 2013 in the Beasley Auditorium with over 150 in attendance. Nursing staff, nursing leadership, respiratory therapy, physical therapy and chaplains, tremendously supported our BUMC Nursing Research Safari.

We had representatives from the BUMC library, Institutional Review Board, Quantitative Services, Aspire and of course, Mila Latour at our great Magnet table!

Thank you for your continued support for Nursing Research.

ATTEND A CONFERENCE

5-7 August 2013 – Chicago, Ill., USA

OMICS Group presents [2nd International Conference on Translational Medicine](#). We do think of translational research and drug discovery as a one-way street. It all starts with the identification of a molecular mechanism and later on eventually leading to a drug that can specifically target a component. Translational Medicine plays an important role in research and pharmaceutical industry. It can be defined in terms of promoting multidisciplinary interactions between science and medicine to enhance disease research and drug development. Email: translationalmedicine2013@omicsgroup.com

5-7 August 2013 – Chicago, Ill., USA

OMICS Group presents [International Conference on Predictive, Preventive and Personalized Medicine & Molecular Diagnostics](#). Personalized Medicine-2013 scientific program paves a way to gather visionaries through the research talks and presentations and put forward many thought provoking strategies in Personalized Medicine. The meeting will put forward the tradition of bringing together different communities and contributing to an integrative approach to Personalized Medicine Research across all scales of observation. Email: personalizedmedicine2013@omicsgroup.com

9-10 September 2013 – Rochester, Minn., USA

Mayo Continuing Nursing Education presents the [Oncology Nursing Review Course](#). The review course is an overview of cancer and oncology nursing practice. It is designed for oncology nurses practicing in settings across the continuum of care and can be used in preparation for certification. Participation in this review course does not guarantee successful completion of a certification test. Email: cne@mayo.edu

17 October 2013 – Kansas City, Mo., USA

The University of Kansas School of Nursing; the University of Missouri, Sinclair School of Nursing; and the Professional Nurse Educators Group present [Improving Learning Outcomes: TeamSTEPPS and Simulation](#). This interactive session will take place in a Simulation Lab. This is a unique opportunity to experience and learn, through simulation scenarios and debriefing, the power of this teaching strategy to engage others in learning. Specific TeamSTEPPS skills learned in the simulations will help you create high-functioning interprofessional care in your organization. All health care professionals interested in learning effective teams skills will benefit from this workshop. Register early as spaces are limited. Email: mgambino@kumc.edu

12-14 November 2013 – Chicago, Ill., USA

OMICS Group presents [International Conference on Functional and Comparative Genomics & Pharmacogenomics](#). Genomics-2013 will focus on Functional and Comparative genomics, Pharmacogenomics, Evolutionary Genomics, Biomarkers and Molecular Markers, Sequencing and Mapping, Proteomics and Cancer Genomics and Computational Genomics and Proteomics. International conference on Functional and Comparative Genomics & Pharmacogenomics, will be organized around the theme "Recent Research Methodologies and Discoveries in Genomics Era." Email: genomics2013@esciencecentral.org

2-4 December 2013 – Las Vegas, Nev., USA

OMICS Group Conferences presents [International Conference on Nursing & Emergency Medicine](#) bringing together a unique and international mix of large and medium medical, pre-clinical research and pharmaceutical companies, leading universities and medical research institutions making the conference a perfect platform to share experience, foster collaborations across industry and academia and evaluate emerging technologies across the globe. Email: nursing2013@omicsgroup.com

GRANTS

Sigma Theta Tau International/ American Association of Diabetes Educators Grant

Purpose

To encourage qualified nurses to contribute to the enhancement and availability of quality diabetes education and care through nursing research.

Research Funding

Funds for this grant are provided jointly by AADE and Sigma Theta Tau International

Contact

AADE Foundation Grants
100 West Monroe Street, Suite 400
Chicago, IL 60603
Phone: 312.424.2426
Fax: 312.424.2427

Sigma Theta Tau International/ Oncology Nursing Society Foundation Grant

Grants: 1 per year

Funding: \$25,000 (max)

Deadline: September 15, 2013

Funding date: January 1, 2014

Contact: Oncology Nursing Foundations

125 Enterprise Drive
Pittsburgh, PA 15275-1214
Phone 866-257-4667 x6298 (toll free) OR 1-412-859-6298

Research
Grants

Sigma Theta Tau International/ Doris Bloch Research Award

Purpose

To encourage nurses to contribute to the advancement of nursing through research.
Funds for this grant do not cover expenses incurred prior to the funding date.

Grants available: 1 per year

Funding: US \$5,000 (max)

Deadline: December 1 2013

Funding date: June 1, 2014
