A Continuing Medical Education event designed for Medical, Radiologic and Surgical Oncologists, Pulmonologists, Cardiothoracic Surgeons, and Diagnostic Radiologists.

CONFERENCE OVERVIEW
The North Texas Multidisciplinary Lung Cancer Symposium will focus on recent advances in lung cancer screening, therapy and research. The expert faculty will present key data in support of imaging in screening, genetic evaluation, minimally invasive surgery, combined modality therapy and the integration of biomarkers for personalized therapy. Discussion will also include recent clinical trial results and impact on patient care.

The format of the conference will include didactic lectures, open discussion and case-based learning. An audience response system will be utilized to enhance interaction with the participants.

COURSE DIRECTOR
Kartik Konduri, MD
Medical Director, Lung Cancer Center
Baylor University Medical Center
Committee Member
Lung Cancer Research
US Oncology Research
Dallas, TX

Chandra P. Belani, MD
Miriam Becker Distinguished Professor of Medicine
Penn State Hershey College of Medicine
Deputy Director, Penn State Hershey Cancer Institute
Hershey, PA

Paul A. Bunn, Jr, MD
Professor, James Dooly Chair in Cancer Research
Division of Medical Oncology
University of Colorado
School of Medicine
Denver, CO

Clark B. Fuller, MD
Director of Thoracic Surgery at the Saint John’s Health Center
The John Wayne Cancer Institute
Santa Monica, CA

Ramassamy Govindan, MD
Professor, Dept. of Medicine
Co-Director
Section of Medical Oncology
Division of Oncology
Washington Univ. School of Medicine
St. Louis, MO

Claudia I. Henschke, PhD, MD
Professor of Radiology
Arizona State University
Phoenix, AZ and
The Mount Sinai School of Medicine
New York, NY

David M. Jablons, MD
Professor & Chief Thoracic Surgeon
UCSF Department of Surgery
San Francisco, CA

Mark Millard, MD, FCCP
Medical Director,
Baylor Foster Lung Center
Baylor University Medical Center
Dallas, TX

Harvey I. Pass, MD
Director,
Division of Thoracic Surgery
NYU Langone Medical Center
New York, NY

Craig H. Reynolds MD
Development Chairman,
Lung Cancer Research
US Oncology Research
Ocala, FL

H. Jack West, MD
Medical Director,
Thoracic Oncology Program
Swedish Cancer Institute
President & CEO
Global Resource for Advancing Cancer Education (GRACE)
Seattle, WA

David F. Yankelevitz, MD
Professor,
Department of Radiology
The Mount Sinai Medical Center
New York, NY

SYMPOSIUM AGENDA
8:00 AM Welcome & Introductions
Alan M. Miller, MD, PhD
8:15 AM Role of CT Screening in Lung Cancer
Claudia I. Henschke, PhD, MD
8:45 AM Epidemiology & Cigarette Cessation Strategies in Lung Cancer
Mark W. Miller, MD, FCCP
9:15 AM The New TNM Staging System for Lung Cancer
Harvey I. Pass, MD
9:45 AM Pulmonary Nodule: Evaluation & Management
David F. Yankelevitz, MD
10:10 AM Discussion
Moderator: Kartik Konduri, MD
10:25 AM Break & Exhibits
10:45 AM Minimally Invasive Surgery for Lung Cancer
Clark B. Fuller, MD
11:15 AM Treatment of Early Stage Lung Cancer: Chemotherapy & Integration of New Agents
Kartik Konduri, MD
11:45 AM Treatment of Advanced Stage Lung Cancer: Role of Maintenance Chemotherapy
David M. Jablons, MD
12:15 PM Discussion
Moderator: Kartik Konduri, MD
12:25 PM Lunch & Exhibits
1:00 PM Lung Cancer in Never Smokers
Howard (Jack) West, MD
1:45 PM Combined Modality Therapy for Treatment of Locally Advanced Lung Cancer
Ramassamy Govindan, MD
2:15 PM Integration of Biomarkers for the Personalized Treatment of Lung Cancer
Paul A. Bunn, Jr, MD
2:45 PM New Paradigms in the Treatment of Advanced Lung Cancer: Role of Maintenance Chemotherapy
Chandra P. Belani, MD
3:15 PM Immunotherapy in Treatment of Lung Cancer
Craig H. Reynolds, MD
3:45 PM Discussion
Moderator: Kartik Konduri, MD
4:15 PM Final Comments & Adjourn
